

Aging hardware and outdated software can slow progress and increase IT costs.

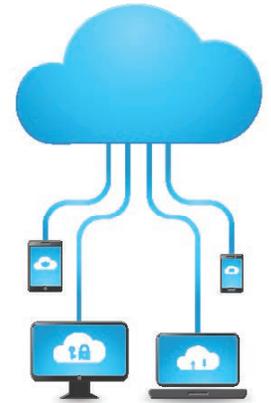

Microsoft Office 365: Take Your Office to the Cloud

Is outdated software preventing effective collaboration and communication among your teams?

Does an inability to access files or work from other devices stall productivity when staff is offsite?

Are continual software upgrades and hardware upkeep eating away at your budget?

Microsoft Office 365 brings greater flexibility and efficiency to today's workplace by letting you work anytime, anywhere, on any device. This dynamic package combines familiar Office programs, business class email, instant messaging, document sharing and video conferencing. With Office 365 you always have access to all your data - whether you're in the office or on the go.

Microsoft Office 365 delivers in-the-cloud service that boosts staff productivity while cutting costs related to software procurement and hardware maintenance.

- **On the Go Access** – Take the office with you. Microsoft Office 365 lets you tap into familiar tools from the cloud using any of your preferred devices. Get instant access to documents, calendars and email, no matter where you are.
- **Productivity Partner** – Empower your employees with tools that enhance collaboration and communication. Cloud-based services allow them to create, edit and share from anywhere, so they're always connected and productive.
- **Improved IT** – Save money and free up company resources. With Microsoft Office 365 your software is always current and hardware maintenance is non-existent.
- **“No Surprises” Pricing** - Control costs with standard monthly fees. Just select your plan and the number of seats you need. It's simple pricing with no surprises.
- **Simple Scalability** - Scale up quickly and easily as your business grows. Simply buy additional licenses to add more users as needed.

Partnering With Purpose

At FMT Consultants our purpose is to inspire greatness through technology. Our in-house team of Microsoft Office 365 gurus takes the time to analyze and understand your business. This enables us to design and implement a solution that's aligned with your unique business needs and opportunities. By optimizing your processes, we help make your business nimble, efficient and more profitable.

We ensure that you work with the same team members as often as possible, and with those who have the greatest familiarity with your industry and system environment.

- **Experience** - Over 2,000 successful project implementations since 1995.
- **Customer Service** - 80+ in-house technology, accounting, solutions and customer care experts dedicated to serve your needs.
- **Innovation** - Ability to customize and tailor Office 365 to meet your unique needs and challenges.
- **Cross-Functional Expertise** - Extensive experience with system integration, custom development and migration.
- **Industry Knowledge** - Experience in a wide array of industries including distribution, manufacturing, finance, professional services, life sciences, healthcare and public administration.

Trouble-free Migration

When migrating from on-premise email servers or other cloud solutions to Microsoft Office 365, problems can arise—lost data, broken formatting and lengthy downtimes.

FMT Consultants knows how to prevent these issues. We carefully manage the data transfer process and thoroughly train you on each tool in the suite to ensure a smooth transition without disruption to your business.

Certified Cloud Solutions Provider

As a Microsoft Tier One Certified Cloud Solutions Provider, FMT Consultants is well-positioned to help you save on your Office 365 licensing while providing the highest level of services.
